Bankruptcy Court
Judge Robert D. Drain
U.S. Bankruptcy court Case #05-44481
One Bowling Green
New York, NY 10004-1408

Dear Judge Drain,

The following letter was sent to Mr. Bloom by representatives of the Delphi Salaried Retiree Association (DSRA) regarding the recent announcement of the Delphi Restructuring Emergence Plan.

Dear Mr. Bloom,

When DSRA's Paul Dobosz met with you in Washington as part of the salaried automotive retiree group late in April, you indicated that preservation of pension plans was a high priority for you. You also emphasized that you were looking for reasonable solutions despite a very difficult set of circumstances. I am contacting you today because we have been advised by reliable sources that a decision on the disposition of the Delphi salaried pension plan is imminent and that now is the time to take action if a turnover to the PBGC is to be avoided. Delphi salaried retirees need task force assistance at this time to help avoid this additional blow to a group that is already hurting badly from the loss of health and life insurance benefits. We would propose, as a reasonable solution, best for all involved that GM rolls the Delphi Pension fund and Salaried retirees into the GM Salaried retirees Pension fund and program.

Here is a summary of facts concerning the current situation:

- *The Delphi Salaried Pension Plan is underfunded by approximately \$2 billion which Delphi is unlikely to be able to make up anytime soon.*
- *Virtually all of the plan's participants worked over 2/3 (25+ yrs) of their career as GM salaried employees some spending as little as a few months as Delphi employees prior to retirement.*
- *The GM salaried pension plan is far better funded than the Delphi plan so folding the Delphi salaried pension plan into GM's plan is a reasonable move from both a financial and ethical standpoint.*

We believe that what we propose is in the best interest of all stakeholders in the GM/Delphi restructuring process for the following reasons:

- *Delphi salaried retirees have already suffered disproportionate losses with respect to their auto industry peers and should at least have their pensions preserved.*
- *Delphi cannot emerge from Chapter 11 without resolving the salaried pension issue therefore they must either turn pensions over to PBGC or return them to GM from where the original liability came.*
- *PBGC currently holds liens on many assets that Delphi needs to sell to emerge from Chapter 11. This action would clear those liens enabling Delphi to proceed with its reorganization.*
- *GM currently intends to purchase several of the Delphi assets with PBGC liens. This action would also allow those acquisitions to proceed unimpeded.*
- *PBGC will avoid the assumption of another large underfunded pension plan.*
- *The US Treasury will collect additional taxes on the increased pension amounts paid to retirees over the lifetime of the annuities.*

In closing, I ask you to use your considerable influence in the restructuring process to achieve the transfer of the Delphi Salaried pension plan back to GM from where it originated. GM has played a significant role in Delphi's salaried retirees' current troubled situation starting with the Separation Agreement, imposing their handpicked management team, and saddling Delphi with non competitive supply contracts. I hope you will recognize that the deck was stacked against Delphi's salaried retirees at the spinoff and do what is both reasonable and right.

Sincerely, Delphi Salaried Retiree Association

68

As a dedicated Salaried employee of approximately 33 years (GM - 23 years and Delphi - 9 years & 8 months) who recently retired, I want to express my objection to the proposed transfer of the Delphi Salaried Retiree Pension to the PBGC.

Having participated on the task teams in the 1997-1999 activities for the GM / Delphi Separation, I understood the business decisions which supported the spin-off of select entities into a Delphi Entity. I also fully understood the commitments and obligations which GM agreed to undertake to ensure the new Delphi Entity would be a long-term viable company. While the current auto Industry strains were not foreseen at that time, it does not negate the commitment GM made to all the Delphi transferred employees. Therefore, I believe those commitments to me and my fellow transferred Delphi Employees require that GM assume back the Delphi Salaried Pension Plan obligations; or, at a minimum, if the Plan is transferred to the PBGC that both GM and Delphi be required to transfer a Fully Funded Plan.

Respectfully,

Coleen M. LeBeau

Coleen M. LeBeau

Delphi Retiree - 32 Years and 8 months
